28.8.96.

From the outset our contract with Bruce K. Golding Pty. Ltd was excellent. The help that was given by the architect and building manager was greatly appreciated by us because of the difficulties with council and building terms we were not familiar with.

Our contract was such that we knew from the beginning the overall costs involved and were kept up to date as work progressed.

The building manager would be on site daily to see that work was going to schedule and made sure that any problem big or small was addressed immediately. It was good for us to see the workmanship involved at each stage and we are pleased with the result.

We are more than happy to recommend Bruce K. Golding P/L, as the quality of their approach to clients is reflected in their work.
