

TO WHOM IT MAY CONCERN,

In July '97 my wife and I decided to extend our home to make room for our growing family. As our home is a return verandah villa, maintaining the character of the home was of the utmost importance. We chose Golding Family Builders to carry out the work and the end result exceeded our expectations.

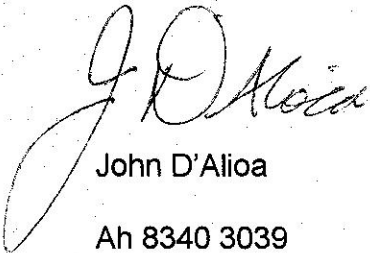

The building work included a large kitchen / family room, bathroom, diningroom, laundry & second toilet, including Baltic pine floorboards and matching the existing doors and architraves.

Goldings' are quality builders who use good tradespeople and Bruce was tremendously helpful to us at all stages of the development. The extension was completed in just over 3 months.

The comments we have had from people are a testament to great planning, consistent supervision and wonderful teamwork between Goldings and ourselves, from the beginning to the end.

We have no hesitation in recommending the Goldings'.

Yours,

John D'Alia
