Mr. Terry Golding,
Golding Family Builders,
651 Portrush Rd.,
Glen Osmond. S.A. 5064.

Dear Terry,

Just a quick note to you, Bruce, Ben and all the others involved in our little project to thank you all sincerely for the great job done from start to completion. As you are aware, our initial contact came after I had driven past two courtyard homes being built by Golding Family Builders. I was obviously impressed with what I had seen and following subsequent discussion with yourself and then Bruce, we proceeded together on the "development" exercise.

We had been warned by friends and acquaintances not to build but to buy something already established and avoid all the dramas and pitfalls that *always* occur when you build. Well, we ignored all the well meaning advice and went ahead, if not a little apprehensively, and I must say that, thanks to the Goldings, the project is now completed to everyone's satisfaction, on time and without any major dramas and very few extra grey hairs. From the initial concept to planning, subdivision, council approvals, choosing of bricks, roofing, cupboards, floor coverings, fittings, colour schemes, etc., etc., etc., Bruce and the Goldings were always there to make things as simple and painless as humanly possible.

Needless to say, we're delighted with our new homes and with the civilised and gentlemanly manner in which all things were carried out. We have no hesitation in recommending the Golding Family Builders to anyone contemplating any building or development project. They truly take the worry out of it!

With kind regards,

Bruce & Donna Rosewarne.
