

THANK YOU LETTER

Dear Terry and the 'Golding Projects' Team...

Once again you have come to our rescue, this time transforming our 1960's seaside getaway.

We are always pleased with the professionalism and skills of your team of guys who under your guidance excel at their crafts.

Once your guys took on the job despite the often cyclonic wintry weather they persisted with the renovation!

We are so pleased with the final result and thank you all for the transformation.

Steven and Deborah Wise
