To Whom It May Concern,

In 1987 my wife and I chose Bruce Golding to build our new house at the above address. Site preparations began at the end of June and foundations were laid in mid July. We shifted into our home on October 23rd. Building operations took just over three months for our twenty five square house. Bruce has a reputation for keeping things moving and certainly this was our experience of him.

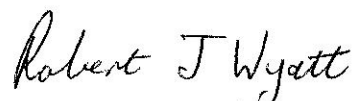

During building operations we had the unique experience of living on site in our caravan in our shed. This had many advantages for us, two being that we experienced the excitement of daily seeing our house grow and we could examine the workmanship at every stage. We found it true that Bruce uses only first class tradesmen.

Bruce and his foreman Michael O'Rourke were tremendously helpful to us at all stages of development. They made themselves readily available for consultations at any time. It was a pleasure to do business with them.

We are now the proud owners of a beautiful, well constructed, master built home, which was very reasonably priced.

As with the sale of any commodity after sales service is most important. Bruce also has an excellent reputation here in looking after his clients and "standing behind" his work. Since the completion of our house we have been grateful to Bruce in the many ways we have received help from him.

I have no hesitation in recommending Bruce Golding to any prospective client who is looking for a quality builder at a reasonable price. He is a man of wonderful Christian qualities, who shows a genuine interest in his clients and a great desire to satisfy.
