Dear Terry

Tammy and I would like to extend our thanks to you and your team; Dave and Ben along with Paul who undertook the lions share of work you have just finished on renovating our rather tired 1980's home.

It has been transformed through a very professional approach from you overseeing the job; co-ordinating different parts of the project and keeping us well informed of what would happen next.

Your crew are clearly highly skilled tradesmen who know what they are doing so much so that they can make adjustments on the go to ensure the goals are met and a standard maintained.

It has been refreshing to meet and observe a group of people working together who inspired confidence in Tammy and myself; we never doubted that what you said would happen would happen.

Your honesty and professionalism is much appreciated Terry and both Tammy and I look forward to seeing you, Dave and whoever else comes along to finish off the internals later in the year.

I have been telling everyone at work about how good you are and I would have no hesitation in recommending your company to prospective customers.

It was fortuitous to come across you and your team Terry, we hear so many horror stories about individuals getting stuck with shoddy workmanship. Not in this case!

A big thank you

Best Wishes

Ian Ward
